

LIFEWORXAPP

Bringing church communication together in one place.

One app. One church. One place to belong.

WWW.LIFEWORXAPP.COM

CHURCH LIFE SHOULDN'T FEEL THIS COMPLICATED.

You're trying to lead, care for people and grow your church — but communication often ends up across multiple platforms.

WhatsApp

A group for one ministry.
Another for the worship team.

Email

For important
announcements.

Website

For events and
information.

Social Media

For updates and wider
reach.

Spreadsheets & Rotas

To manage teams and
serving.

Forms & Other Tools

For everything else.

AND SOMEWHERE IN THE MIDDLE OF ALL OF THAT...

People still miss things.

Announcements get buried.
New people don't know where to look.
Volunteers forget where the rota was posted.
Your team spends valuable time updating multiple
systems.

It takes time, energy and creates frustration

You didn't start the church to
manage five different platforms.
You started it to reach people,
make disciples and see lives
transformed.

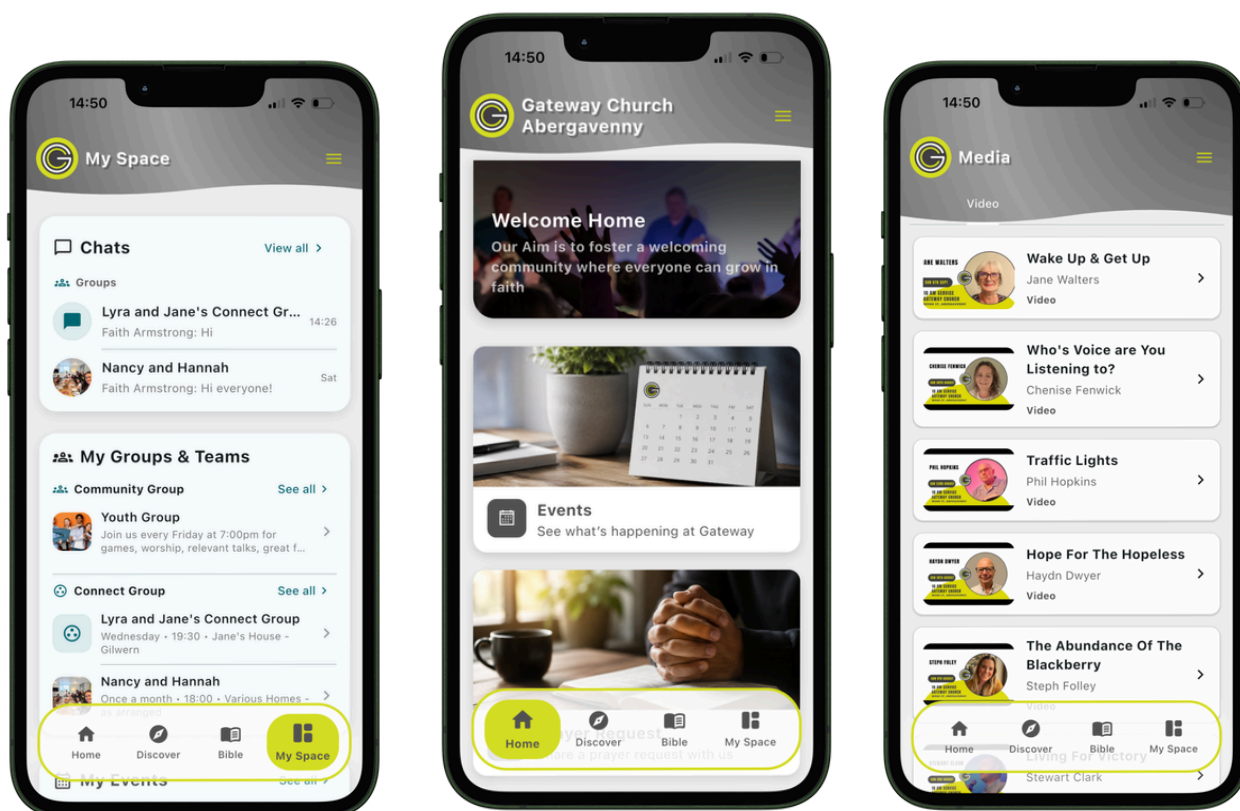

THERE HAS TO BE A SIMPLER WAY.

LifeWorXApp brings it all together.

CHURCH LIFE IN ONE APP.

From "Where do I find that?" to "It's in the app."

LifeWorXApp brings the everyday parts of church life into one clear, accessible place - helping people stay informed, take next steps and stay connected throughout the week.

Events | Announcements | Groups | My Space | Messages & Chats | Teams & Rotas | Devotionals Push Notifications | Church Information

My Space brings your notices, chats, groups and volunteer communication together in one place.

One app. One church. One place to belong.

YOUR APP. YOUR IDENTITY. YOUR CONTROL.

Give your church its own presence in the App Store and Google Play — with your name, your logo and the freedom to manage routine updates without third-party fees.

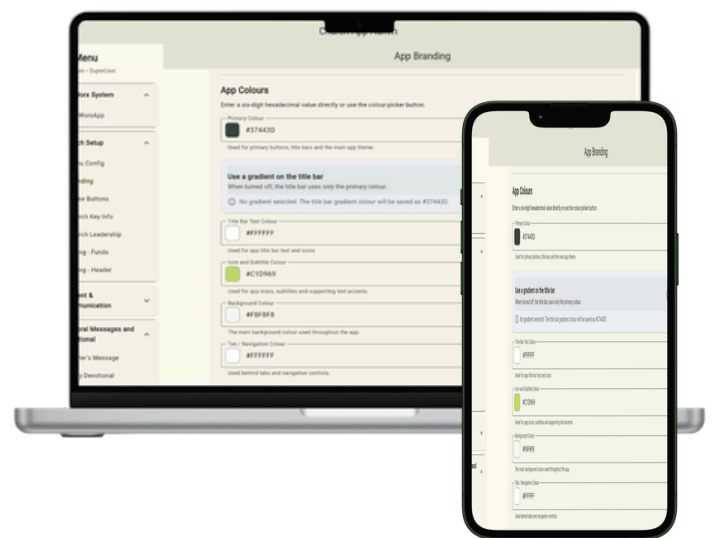

Your church, your app.

Every LifeWorXApp is built around the church it belongs to — with your own name, logo, colours, imagery, ministries and content.

You're in control.

Your authorised team can update content, services, ministries, information and branding without waiting for routine developer changes.

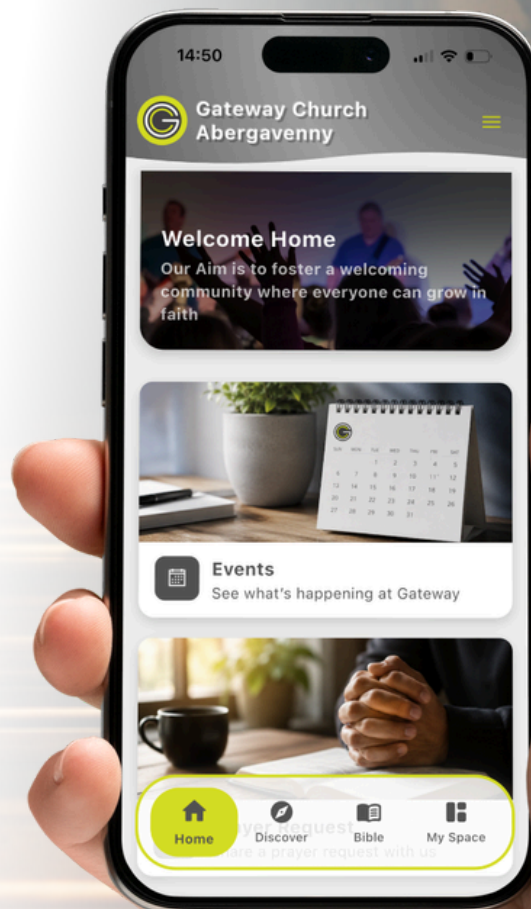

NO WAITING. NO ROUTINE CONTENT-UPDATE FEES.

Your app can change as your church changes.

We take care of the **technology.**
You take care of your **church.**

SEE WHAT LIFEWORXAPP COULD LOOK LIKE FOR YOUR CHURCH.

We'll show you how LifeWorXApp can bring your church communication, community and everyday church life together in one place — under your own church identity.
